This funding will support the employment of Student Success Coaches who provide crucial academic and emotional mentorship, as well as hiring qualified educators trained in mastery-based and flexible instructional approaches. Additionally, we will implement research-based programs, including computer-based courses for credit recovery and personalized learning plans that empower students to take ownership of their education. To further bolster our efforts, Title I funds will also support ongoing professional development for staff, focusing on the effective use of our learning management system, culturally responsive teaching practices, and strategies for engaging diverse student populations. Importantly, we will also cover dual enrollment fees, providing students with the opportunity to earn college credit while still in high school. This comprehensive approach aligns with our School Performance Plan and is essential for bridging the achievement gap, enhancing student outcomes, and preparing all ThrivePoint students for their Next Big Step, whether that be college, career, or military enlistment.
